MARTIN'S ATTORNEY OBJECTS TO TREATMENT OF THE MARTINS

Joseph Chez Looks Upon Repeated Arrests as Attempt to Create Prejudice—Preliminary Hearing of J. H. Martin on Charge of Assault With Intent to Commit Murder, Will Be Held Before Justice Rhees of Pleasant View Tomorrow.

Before the day is over I expect to file a complaint in the municipal court charging Harry Martin with burglarizing the Riverside flour mill on North Washington avenue and I think there is no question but that he will be held to answer before the district court on that count. The offense was committed December 19, 1912, and it will be recalled that the safe was entered. As yet I have no charge against the young man for the blowing up of the Macaroni factory safe with nitro-glycerine, although the safe cracking was on the same night as the burglary of the Riverside mill and the two places are close together, was the statement of County Attorney David Jensen this morning when seen by a Standard representative.

"I think there is nothing to the charge against Harry Martin, and while I do not like to say so, it looks to me as though it is a sort of trumped up charge against Harry to prejudice the community against the Martin family," said Joseph Chez, attorney for the Martins "and I shall pay no particular attention to it at the present time."

"If the complaint is filed against Harry, there will be no necessity for habeas corpus proceedings and I do not think I would resort to habeas corpus at this time even should no complaint be filed. It looks as though an effort is being made to have the public believe that the Martins are a nest of wrong-doers, and the only thing for us to do is to wait for indication. However, I should like the people to withhold judgment until after these men have had a hearing in court. That should be done in fairness to the Martin family. There is this I should like to say. However, that whoever the guilty parties are in these blackmailing schemes, they should be convicted and brought to justice, but we must be careful that innocent parties be not sent to the penitentiary. I am going to see to it that the Martins are protected under the law and that the allegations it has made against J. H. Martin. I want the preliminary hearing to be complete in every respect, and I think it will be."

Mr. Jensen stated that he expects the preliminary hearing of J. H. Martin, charged with assault with intent to commit murder will take up the time of Justice Rhees two or three days, as there will be a number of witnesses to examine and it is expected that the cross-examination will take much time. Aside from testimony regarding the wounds in Martin's hand and the fact of the shooting of Edwards, letters now in the hands of railroad people which were written by Martin will be introduced to prove that the handwriting is the same as that in the letters addressed to L. R. Eccles demanding money.

On the other hand, specimens of handwriting given by Martin since his incarceration in the city jail are very dissimilar to the handwriting in the railroad letters and also to the handwriting in the Eccles letters, but the officers say that Martin wrote in jail in a cramped hand and that he would not write anything unless he could have his way as to the manner of writing.

Justice of the Peace Reuben T. Ruesch of Pleasant View was in the city today and he stated that the hearing will begin tomorrow morning promptly at 10 o'clock in the amusement hall, which is across the county road from the school house.

The building is large enough to accommodate many people and the justice has arranged for seating facilities to the capacity of the house. The Rapid Transit company has made arrangements for special service during the day as follows:

A special train will leave Twenty-fifth street and Washington avenue at 9:10 a. m. sharp. The regular car will leave for Pleasant View at 9:30 a. m. The special will arrive at Pleasant View in good time for the opening of the hearing.

MARTIN IDENTIFIED BY TWO MEN FROM MORGAN

Another link in the chain of evidence which will be given at the preliminary hearing as to the identity of Martin as the man who appeared at Morgan the evening of the shooting of Edwards with gunshot wounds in his legs, was furnished yesterday when Joseph Francis and David Eddington were taken into the presence of Martin at the city jail and they partially recognized him as the man.

such as Mr. Martin's. His general outline and size compare with that of the man in the bay.

If it were Martin at the barn, the officers are at a loss to know just how he made his way to Morgan during the day and they also are trying to figure out just where he went after he slept in the barn. The man seems to have dropped entirely out of sight at Morgan. The supposition, however, is that Martin made his way over the railroad on Sunday and, looking on Morgan as an out-of-the-way place, decided to stop over.

Martin has told the officers that he left the city the day after the Edwards shooting and went to Evanston and Green River for ten days, but they are certain that he was away from home not more than six days and that he did not go to the Wyoming town at all. In that event he could have made his way back from Morgan unobserved and then remained in hiding at home a number of days.

Mr. Eddington stated to the officers yesterday that he was reasonably certain that Martin is the man who slept in Francis' barn, as he answers the description of a man who came to his home shortly after dusk that evening and asked for quarters. Eddington talked with the man in the twilight, almost dark, and he could not well distinguish his features but he was sure that he was the man who went to the Francis home after he had refused to furnish him a bed.

When the man asked for a bed to sleep in, Eddington told him that the sheriff always had good quarters and that it was the practice to give lodging and food to men who were in need. The would-be tramp said he did not care to sleep in the county jail and that if he could not sleep in his barn he would seek shelter elsewhere.

Mrs. Joseph Francis, who also saw the man who slept in the barn, was not brought to the city, but it is understood that who has recognized the picture of Martin as the man.

It is expected that the four Morgan people will be called as witnesses at the preliminary hearing and that their evidence will be strong corroboration of the statements of Edwards that he shot Martin in the battle on West Seventeenth street.

Respecting the work to be done by the grand jury, which will be drawn tomorrow, both District Attorney John C. Davis and County Attorney David Jensen say that they know of no arrangement by which Attorney General A. R. Barnes or any other state attorney will take charge of the proceedings. Mr. Jensen stated this morning that he had had no talk with Mr. Barnes and that he had contemplated no extraordinary proceedings in the matter of conducting the affairs of the investigating jury.

"I will conduct the grand jury proceedings personally," said District Attorney Davis this morning, "notwithstanding statements to the contrary with the aid, of course, of County Attorney Jensen. The functions of the grand jury are purely of a state nature and under the law it is my duty to look after the investigations. I feel that if I were to decide to call any of the attorneys for the state into consultation they will gladly respond and I shall surely do that if at any time I think it necessary."

Attorney Davis stated further that Attorney General Barnes had never made the statement to him that, while he would not personally conduct the investigations before the grand jury he would have one of the best attorneys in the state do so.

"FATHER AND SON" MOVEMENT NEEDED

Cleveland, O., Dec. 15.—A "father and son" movement is to be inaugurated here soon. The object is to promote a closer understanding and a spirit of comradeship between fathers and their sons.

Robert E. Lewis, secretary of the Cleveland Young Men's Christian association, will issue a call some time this week for a meeting at which plans for the movement will be arranged.

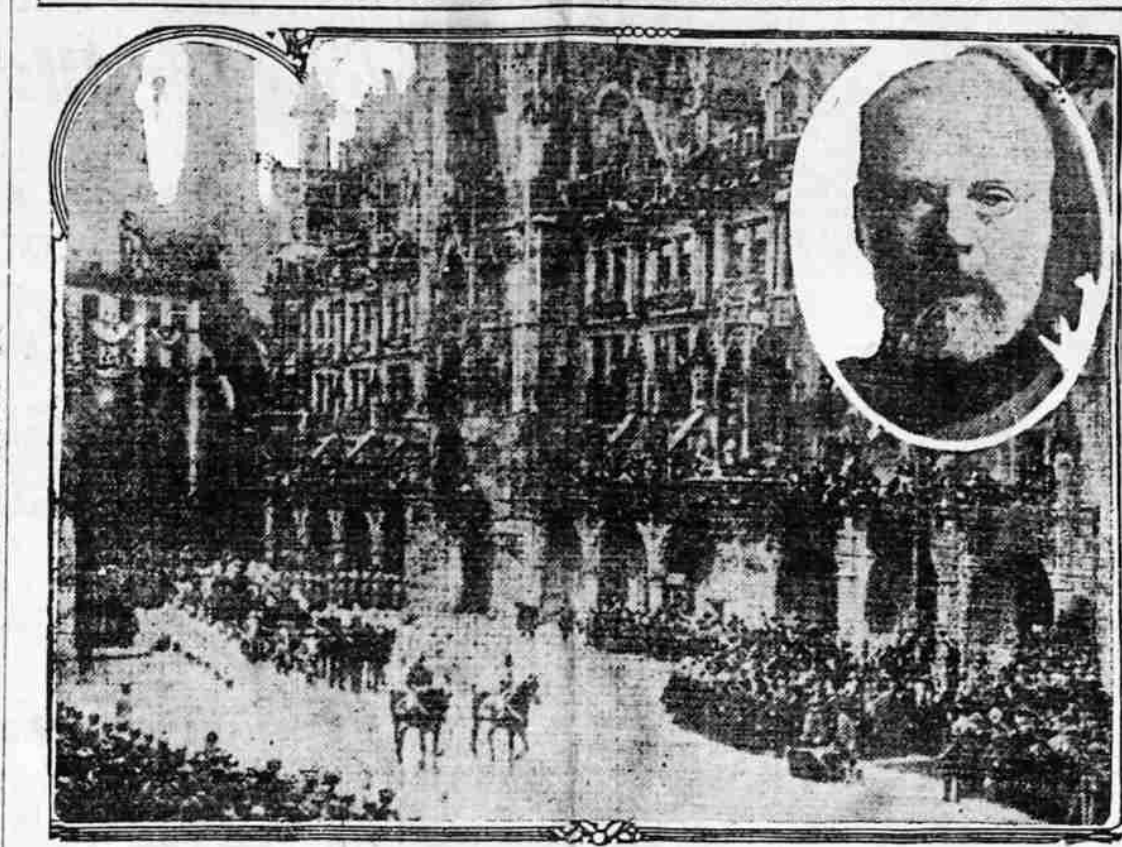

The various aims of the movement are:

To help fathers and sons to understand each other.

To interest fathers in the outside influences their sons meet so that they can help them to avoid evils.

To break down the barriers that often exist between fathers and sons.

GREAT POMP AND CEREMONY ATTEND ACCESSION OF LUDWIG III TO THE THRONE OF BAVARIA; SUCCESSOR TO MAD KING OTTO

Ludwig III arriving at the Rathaus to receive the homage of the Munich corporation on the day of accession to the throne; insert shows King Ludwig III.

Pictures have reached this country showing with what pomp and ceremony Ludwig III was crowned King of Bavaria. As the new king rode through the streets on the day of his accession he was cheered by thousands of enthusiastic people who filled the streets. Ludwig III was born in January, 1845, and on February 20, 1868, he married Archduchess Maria Theresa, who is a direct descendant of King Charles I of England, and is called "Queen of England" by the Legitimists. The new king, of course, formally took the place of the mad King Otto, who recently was found by a special commission to be suffering from incurable paralysis.

BEGGARS SCHOOL FOR RECRUITS

Chicago Headquarters for National Association of "Gray Cats"—Tricks Taught.

Chicago, Dec. 15.—This city is the headquarters of a national association of beggars, according to officials of the police department. Lieutenant James V. Larkin of the detective bureau last night announced that the organization maintains a school in one of the poorer neighborhoods of the West Side where recruits are taught the tricks of the trade.

"The gray cats" is the official name of the organization, say the police. Although headquarters are in Chicago, "camps" are said to be maintained in other large cities of the country.

Methods of deception are part of the curriculum of the training school, according to the police. Recruits are taught how to "make up" as cripples and invalids. They are shown the use of acids in making healthy hands and arms appear scalded.

BATTLESHIP FLEET HOME FOR XMAS

New York, Dec. 15.—The end of the Mediterranean cruise of United States battleships brought to New York today nearly 5000 officers and men glad to be home again and with a chance to spend the Christmas holidays ashore.

The super-dreadnought Wyoming, flagship of Rear Admiral Charles J. Badger, commander-in-chief of the Atlantic fleet, and the battleships Arkansas, Utah and Florida were the returning ships, which were awaited here by the dreadnought North Dakota, also of the first division. The arrival of the Wyoming attracted more than ordinary interest among naval men as it may be the last time that the super-dreadnought will fly the flag of Admiral Badger as commander-in-chief. He is to retire early in the coming year and the navy is already speculating as to his successor in the most important command in the navy department.

The returning ships will probably remain at New York until after new years unless the Mexican situation should become so acute as to necessitate their going to Mexican waters to reinforce the fleet now there under command of Rear Admiral Fletcher.

NO STOPOVERS ON FARMERS' TICKETS

Chicago, Dec. 15.—Because of the large number of country folks who become easy victims of pickpockets and confidence games in large cities, the Central Passenger association announced today that beginning February 1 no stopover privileges will be granted on homeseeker's tickets. The principal stopover points on such tickets are Chicago, Cincinnati, St. Louis, Kansas City, St. Paul and Minneapolis.

EIGHT MILES OF NEW RAILS TO BE LAID IN THE YARDS

Chicago Headquarters for National Association of "Gray Cats"—Tricks Taught.

The work of surfacing for the new tracks that are to be laid in the local railroad yards, is progressing. A crew of men employed by the Utah Construction company is filling in the hollow at the north end of the Southern Pacific roundhouse and another crew is grading for the steam shovel track at the southwest end of the yards.

Engineer R. B. Robinson, of the construction department of the Oregon Short Line, said this morning that the work decided on by the company was the laying of eight miles of new track and the changing of the present trackage as fast as traffic will permit.

Engineer Robinson is working under the direction of Assistant General Manager Carl Stradley of the Oregon Short Line, and expects to be in the city from now on to take personal charge of the present work.

HUSBAND AND WIFE REUNITED AFTER AN ESCAPE

J. F. Cameron, husband of Belle Cameron, the woman arrested Saturday morning with Geo. M. Nichols, arrived in the city this morning.

Mrs. Cameron and Nichols were arrested by the local officers by request of the authorities at Omaha, Neb., and have been held since then awaiting word from Omaha, as to their disposal. The five-year-old daughter of Mrs. Cameron was with them.

On his arrival, Mr. Cameron went to the police station and delivered to Chief Norton a letter from the Omaha chief of police which contained the information that the authorities there could not get the city attorney to swear out a warrant against Nichols and Mrs. Cameron.

Without the warrant the Ogden authorities could not hold the couple, so they were released.

In lieu of the warrant, however, the Omaha authorities had sent the husband of Mrs. Cameron to try his persuasive powers to get his wife to return with him. Husband and wife left the station together with the little girl and Nichols went his way alone.

SUDDEN DEATH OF GEORGE W. MOYER

Geo. W. Moyer, who has been one of the most prominent Progressives in the state, died suddenly this morning in Salt Lake City.

TRAIN BURIED BENEATH ROCKS

Chemnitz, Germany, Dec. 15.—Four persons were killed and 34 seriously injured early today by the crushing of a passenger train in a tunnel which collapsed during a slight earthquake.

The train was bound from Rossau to Chemnitz. The tunnel which collapsed pierces the Harz mountains, eight miles from here. The locomotive and six cars were buried beneath huge rocks.

A relief train with doctors and ambulances from Chemnitz was brought quickly to the wreck by the signal man at the mouth of the tunnel who saw the collapse and telegraphed at once to headquarters.

A hurricane, accompanied by snow, hindered the work of the rescuers. The earthquake shock was plainly felt here.

MEXICANS ARRESTED BY OFFICERS AT UINTAH

Saturday evening Deputy Sheriffs George Leatham and Eldo Ritter arrested Pedro Orgene, Carlos Morano, Jose Montano and Jose Orgene, all of Mexican nationality, at Uintah for burglarizing the cabin of the section hands.

The fellows stole a supply of foodstuffs, the goods being found in their possession. The men will be charged with burglary unless the value of the stolen property warrants a charge of grand larceny.

PROF. PETERSON ON HEREDITARY TRAITS

Professor Joseph Peterson, of the University of Utah, was the speaker last night at the meeting of the Sunday night club in the Guild hall of the Church of the Good Shepherd. His main subject was "The effects of environment on hereditary traits."

In addition to this subject, he spoke briefly upon Culture and Education. In his talk the Professor said that a compilation of statistics had practically proven that environment was one of the most important factors in the development of men and women and that all possible efforts should be made by enlightened people to make the environment of the children such that it would tend toward the improvement of the race and not toward its deterioration. Hereditary traits he said, were those of a physical nature and make-up.

The speaker also touched upon the question of pre-natal influences and said that, aside from an influence of a physical nature coming from the good or poor health of a mother, there was no pre-natal influence. Continuing, he said that there was a tendency toward creating an environment after the birth of a child, along the lines desired and that that was the real action that brought conditions that were thought to be the result of pre-natal influence.

Regarding eugenics, Prof. Peterson took the same views as those expressed and illustrated by Dr. E. C. Titus of the Agricultural College, in his series of lectures at the Ogden High School and said that he hoped the time would come when only those suited to bring proper children into the world, would be permitted to wed and that the others would come to a realization that it was their duty to the race to abstain from the marriage relation.

NINE OFFENDERS ARE BEFORE THE POLICE MAGISTRATE

Nine culprits faced Judge Reeder this morning in the police court, five of them Sunday drunks and the other four, vagrants.

William Taylor and James McNamee were arrested by Patrolman James Hearn, on Twenty-fifth street, near the European hotel, yesterday at 1:00 p.m. and booked as plain drunks. They were given a lecture by the judge and let loose with suspended sentences, pending good behavior.

George Hall was brought in by officer H. C. Peterson about 3:40 yesterday afternoon and he also received a suspended sentence. Hall was charged with drunkenness.

J. Kinoshita, a Japanese drunk, for feigned \$5.00 bail and Thomas Murphy a drunk, went his way with a suspended sentence.

Matt Conway was taken from the sidewalk in front of the Japanese rooming house, on Twenty-fourth street, between Grant and Lincoln avenues, yesterday at 5:30 p.m. in a helpless condition from drink. He was arrested by Patrolman Blackburn. This was Conway's third time and he got a sentence of five days in jail.

F. J. Briggs, a vag, had his case taken under advisement, and Frank Gurney, Milley Campbell and Ernest Sullivan, charged with the same offense were given five days each. The last three were found by Patrolman Hearn, sleeping in Gomer Nicholas barn.

McCharg Asks Hearing. In addition to the members of the committee, who expect to speak, Ormsby McCharg has asked for a hearing.

Mr. McCharg is understood to have prepared a brief against the right of the national committee to call an extraordinary convention. Chairman Hillis said today that he was not attempting to use the power of his position for either contention and holds to the view that it is a question to be settled by a majority of the committee.

ISSUING OF TRANSFERS ON RAPID TRANSIT CAR LINES

On and after January 1, the Ogden Rapid Transit company, desiring to eliminate so much delay at junction points, and following the arrangement of street car companies in larger cities, has decided to issue transfers to passengers upon entering only at the time the fare is paid.

This rule applies with all big street railways and is found to work to advantage with passengers and the employees of the street car lines.

WEBER ACADEMY IS DEFEATED AT PROVO

The Weber basketball team returned from Provo yesterday afternoon, defeated but not discouraged.

In their game with the Brigham Young University five on the latter's floor, the B. Y. U. boys won out by a score of 59 to 12. There were over 1,000 people at the game.

Coach Malcolm Watson's men were pitted against a team that averaged 30 pounds heavier to the man, with much more experience in the game. The locals feel therefore that the scoring of 12 points against such odds was pretty good work. Coach Watson says that many valuable points were gained by his men and that the weak points in their work were noted and he will be able to work more constant in the training of the Weber five from now on.

The lineup for the Provo game was: Weber—Belnap, LF; Layman, LG; Richards, C; Ferrin, LF; Herbert, RF; Sub—Wilde.

B. Y. U.—Bowman, LF; F. Egbert, LG; V. Greenwood, C; Halverson, LF; Halgren, RF.

Prior to the Weber-B. Y. U. game, the B. Y. U. high school and the Springville high school teams played. In this game the B. Y. U. high school were victorious, the score being 32 to 20.

Taken to Fort—Charles Brown, the deserter, who was captured by Sergeant McMillan last Friday, was taken yesterday by the Sergeant to Fort Douglas and turned over to the post commandant.

REPUBLICANS TO LINE UP FORCES

National Committee to Decide on Reorganization of the Grand Old Party.

M'CHARG ASKS HEARING

Calling of Extraordinary Convention Divides Politicians—Legal Phase of Primaries.

Washington, Dec. 15.—Such members of the Republican national committee as had arrived here today indicated almost an even division of sentiment on the questions of party reorganizations, which are to be taken up in conferences beginning tomorrow.

The forces opposed to an extraordinary convention were lining up against the proposed reduction in southern representation. Some committee members reported it as probable that before the actual work of the committee begins tomorrow there will be three divisions of opinion. In the first will be found the national committee members who favor the calling of a convention immediately; in the second will be those who are opposed to any convention at all, and in the third, will be others who are willing to have a national convention, but who do not see any pressing need for it.

The first and third groups are expected to join against the second and the odds are said to be in favor of a convention. According to predictions of Chairman Hillis, the convention probably will throw out its differences in open session and the advocates of all proposals will have an opportunity to give their arguments in public.

McCharg Asks Hearing. In addition to the members of the committee, who expect to speak, Ormsby McCharg has asked for a hearing.

Mr. McCharg is understood to have prepared a brief against the right of the national committee to call an extraordinary convention. Chairman Hillis said today that he was not attempting to use the power of his position for either contention and holds to the view that it is a question to be settled by a majority of the committee.

DEMOCRATS WIN IN SENATE VOTE

Line-Up Shows Administration Has Votes to Carry the Glass-Owens Bill.

Washington, Dec. 15.—By a vote of forty to thirty-five, the senate today defeated the first attempt to alter the administration currency bill as framed by the Democratic caucus. The vote sent to the table the first amendment proposed by Senator Hitchcock of Nebraska, which would have fixed the number of regional banks in the new system at four and would have made the regional banks publicly owned institutions.

With the exception of Senator Hitchcock, the Democrats voted solidly for the administration bill and supported Senator Owen's motion to table the Hitchcock amendment. Senator Polinder, listed as a progressive, voted with the Democrats. The Republicans voted solidly for the Hitchcock amendment.

The vote indicated the lineup on the sweeping amendments proposed by Senator Hitchcock and the Republicans of the banking committee. It indicated that the administration Democrats have the votes to pass the bill without substantial change.

Hostilities between Senator Owen, in charge of the currency bill, and Senator Hitchcock, the only Democrat who has stood out against the administration measure, broke out again in today's debate. At the conclusion of the verbal duel, the senate, on motion of Senator Hitchcock, struck from the record references to him printed as part of Mr. Owen's speech last week.

SERGEANT SCHOOF, A SOLDIER OF FORTUNE

Sergeant Major Gustave H. Schoof of the Twenty-third Alberta Mounted Rangers of the Dominion of Canada, gave an exceptionally interesting talk this morning before the assembly of students at the Ogden High school.

Major Schoof, is a genuine soldier of fortune, is possessed of a splendid physique and an almost limitless knowledge of the methods of warfare in the different countries. He is also a most entertaining speaker.

Church tonight beginning at 8:00 o'clock, to which the public are invited.

Forest Supervisors—Forest Supervisors W. A. Anderson of Nevada, George C. Thompson of Ely, Nev., and David Laing of Challis and Herbert Graff of McCall, Idaho, arrived in the city today for detail work at headquarters.
